

Teacher of Business Studies (GCSE, A Level & BTEC)

From January 2022

We are looking for an ambitious graduate with experience of teaching A Level, GCSE and BTEC Business. They will relish the opportunity to be involved in the wider life of a busy boarding and day school. The role available is part-time (0.72) but full time applications will also be considered from those likely to contribute in other departments and/or widely in other areas across the school.

The Department

The department is an experienced one, currently comprising four full time teachers and two part time teachers, with a wide range of experience and other roles in the school.

Business at Clifton

Business is a popular and growing subject at the College. Clifton students follow the Edexcel Business A Level course. There are typically three sets and 30 - 50 students in each of Year 12 and 13.

We recently introduced the BTEC National Level 3 Extended Certificate in Business, giving students the opportunity for a more flexible, continuous and independent approach to learning, giving them transferable skills preparing them for their next steps in a more vocational setting than the A Level. Currently, there is 1 set in each of Year 12 and Year 13.

A recent decision was made to switch to the Edexcel GCSE in Business Studies. There are typically four sets and 45 - 65 students in each of Year 10 and 11.

Outside the classroom

A number of activities are run outside the classroom including an Economics and Business Society with regular external speakers, as well as visits for students across the age groups and courses. Department staff run regular one-to-one clinics to encourage the progression of all students throughout the year.

The department is well-equipped with interactive touch-screens installed in each classroom, and also traditional whiteboards around all the other walls in the classrooms. There is a departmental office and a small ICT suite. The rooms are located in the Coulson Centre, which also houses the Mathematics and Design Technology departments.

Person Requirement

The successful applicant will have to display a genuine interest in Business and exemplary teaching practice. We are also looking for somebody who is keen to develop the co-curricular opportunities for Business students. They must be a team player, willing to support colleagues in the department.

If you require any further information about this role, please contact the Head of Department, Julia Folland at jfolland@cliftoncollege.com
